The Postal Service asks that the Commission add the GEPS–NPR 11 product to the competitive product list to reflect the change in non-generally applicable rates for this competitive product. Request. at 9.

COMMENTS

The Public Representative has reviewed the Postal Service’s Request, the GEPS–NPR 11 model contract, and the new financial model filed under seal. Based upon that review, the Public Representative concludes that the GEPS–NPR 11 product should be added to the competitive product list. In addition, it appears that the discounted prices developed from the financial model should generate sufficient revenues to cover costs and satisfy 39 U.S.C. § 3633.

39 U.S.C. § 3633. Pursuant to 39 U.S.C. § 3633(a), the Postal Service’s competitive prices must not result in the subsidization of competitive products by market dominant products; ensure that each competitive product will cover its attributable costs; and, ensure that all competitive products collectively contribute an appropriate share of the institutional costs of the Postal Service. Based upon a review of the financial model filed under seal with the Postal Service’s Request, it appears the discounted prices developed from the financial model should generate sufficient revenues to permit the GEPS–NPR 11 product to cover costs and thereby satisfy section 3633(a).

The Public Representative respectfully submits the foregoing comments for the Commission’s consideration.
